

Register of Internationally Active Insurance Groups based on information publicly disclosed by group-wide supervisors

The Common Framework for Supervision of Internationally Active Insurance Groups (ComFrame)¹ establishes supervisory standards and guidance focusing on the effective group-wide supervision of Internationally Active Insurance Groups (IAIGs).

This is a register of IAIGs publicly disclosed by group-wide supervisors (GWSs). The register has been compiled by the International Association of Insurance Supervisors (IAIS) based on information received from GWSs.

GWSs are responsible for identification of IAIGs, in cooperation with other involved supervisors, after considering whether a group meets both the following criteria, provided in ComFrame:

- Internationally active:
 - Premiums are written in three or more jurisdictions; and
 - Gross written premiums outside of the home jurisdiction are at least 10% of the group's total gross written premiums.
- Size (based on a three-year rolling average):
 - Total assets are at least USD 50 billion; or
 - Total gross written premiums are at least USD 10 billion.

In limited circumstances, described in ComFrame guidance, the GWS has discretion to determine that a group is not an IAIG even if it meets the criteria or that a group is an IAIG even if it does not meet the criteria.

As of 6 February 2023, fifty-two (52) IAIGs have been identified by relevant GWSs from 17 jurisdictions. All 52 IAIGs have been publicly disclosed.

At a minimum, the public register will be updated annually. However, ad-hoc updates may be made more frequently based on disclosures by GWSs that may occur during the year.

¹ ComFrame is available on the Insurance Core Principles and ComFrame page of the IAIS website ([link](#)).

Table 1: Register of IAIGs disclosed by GWSs

Number	Name of IAIG	Group-wide supervisor (GWS)	Jurisdiction of GWS
1	Aegon N.V.	De Nederlandsche Bank - DNB	Netherlands
